COLOUR MY WORLD

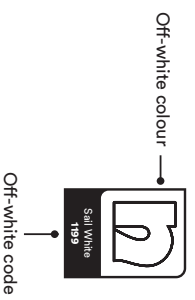

DIGITAL EDITION

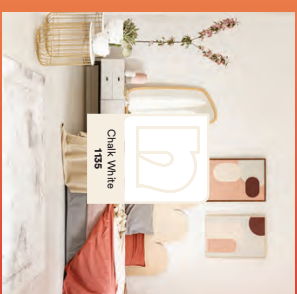

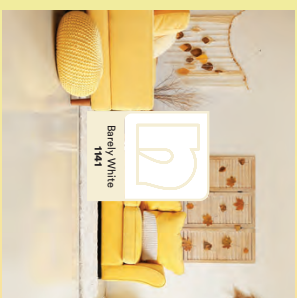

A World of Whites

Timeless and trend-proof, off-white remains the most popular paint colour for living areas. Here's a quick guide to how you can create a myriad of moods with the numerous nuances of white.

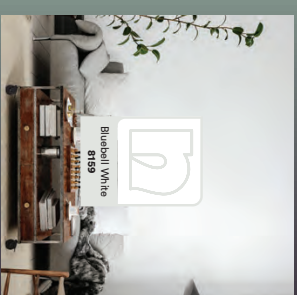

- Ⓐ A warm colour scheme typically includes the colours of the sun and its splendid daily greetings and farewells – the sunrise and sunset hues of yellow, orange and red. Warm tones pair best with an off-white that has yellow, peachy or brown undertones.
- Ⓑ Like a fresh sea breeze or the scent of freshly laundered linen, cool colour schemes gently envelop their occupants in soothing blues and unobtrusive greys. Cool tones are complemented by an off-white with purple, blue or grey undertones.
- Ⓒ Akin to a blank canvas, a neutral colour scheme is the ideal backdrop for décor items in muted and earthy colours from mossy greens to flinty greys. An off-white with subtle brown or grey undertones works best in a neutral space.
- Ⓓ Bright and bold, a vibrant colour scheme is typically enlivened with accent pieces in rich saturated colours. An off-white with undertones of beige, brown, or purple is the ideal backdrop for making your statement pieces pop.

Colour of the Year 2022

Vintage Vase

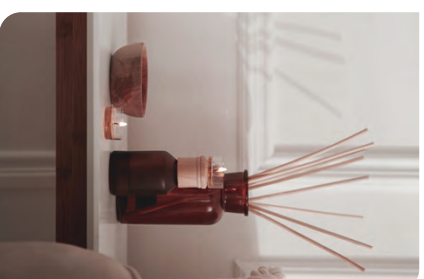

Homely and earthy, Vintage Vase is the colour of terracotta and clay, autumn leaves, rosy sunsets and cosy evenings.

Soothing, calming, as therapeutic as the feel of wet clay on a potter's wheel, it's what the world needs now.

Vintage Vase gently blankets a room and its occupants in a cosy embrace. It sits comfortably in a nature-inspired palette of driftwood and ivory, amber and teak, soft greens and barely-there blushes of pink.

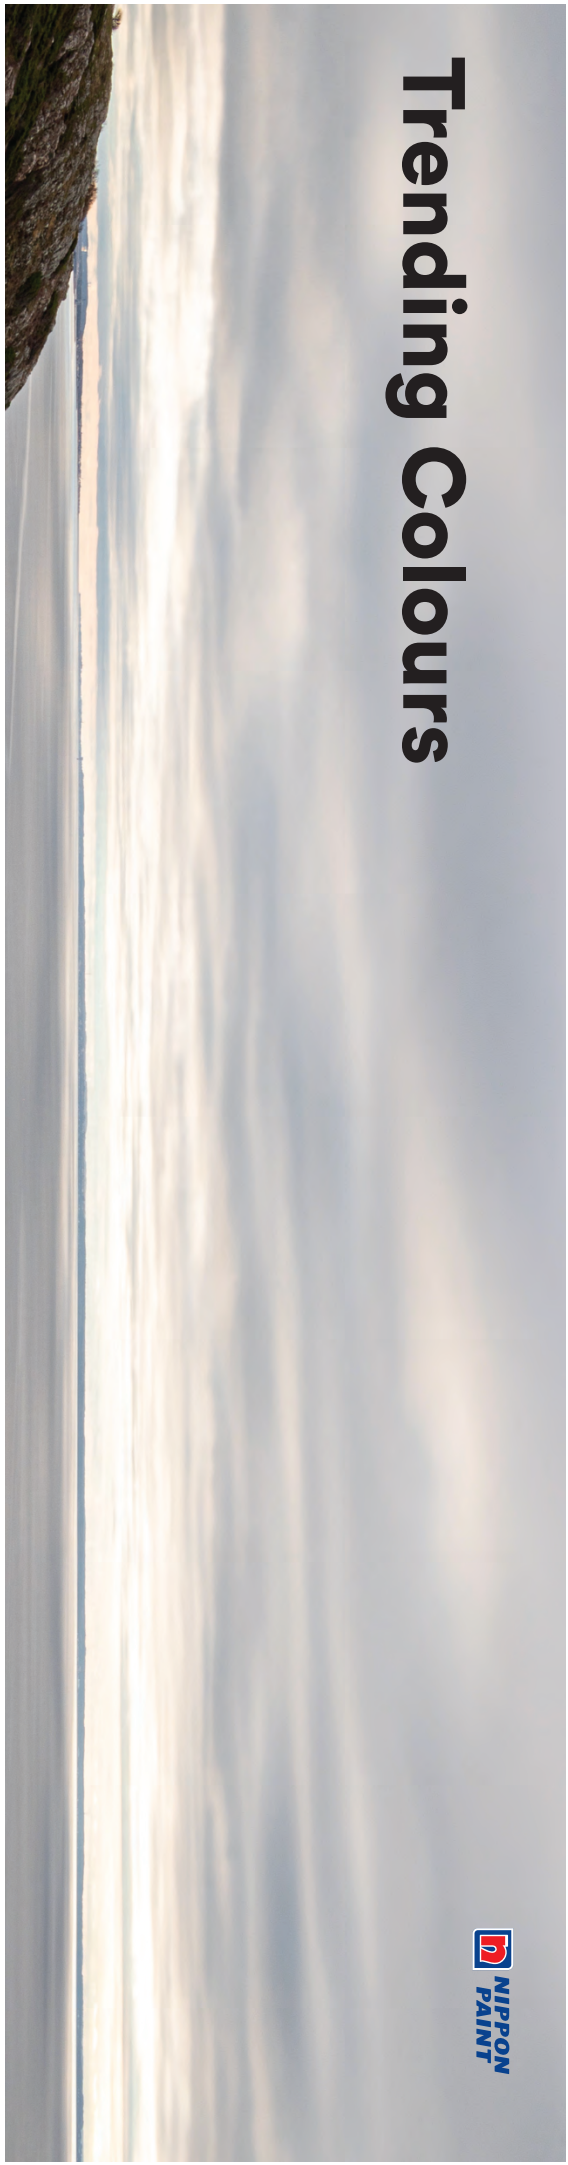

As its name suggests, this timeless yet trending colour exudes nostalgic charm. It suits an eclectic theme that layers old upon new, mixing family heirlooms with thrift shop finds and mid-century modern classics.

Vintage Vase. Pick it up. Fill it with your sentimental treasures. Make it yours.

Trending Colours

Cool Neutral

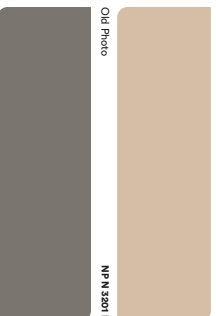

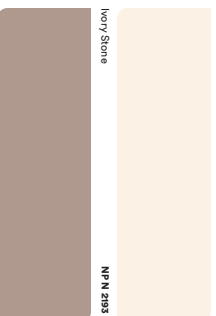

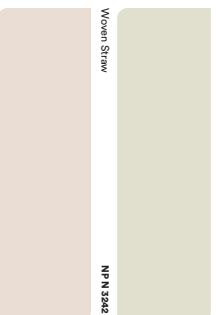

A misty sky after the rain. The calm of an ocean before a storm. The stark beauty of a winter landscape. Evoking visions of cooler climes, cool neutrals are a popular choice in our tropical climate. Pair them with sage green, charcoal and woodgrain for a thoroughly modern vibe that is elegantly understated, and quietly sophisticated.

Warm Neutral

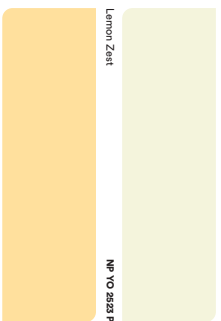

Sun-warmed pebbles on a European beach. Filtered sunlight through grapevines. Warm neutrals conjure images of mellow hours of quiet contentment, and are a popular choice for those who love to cocoon at home. They are the perfect foil for palest pink, oatmeal and putty, and natural materials from calico to cane.

Yellow

Sun-kissed fields of wheat. Freshly churned butter. Daffodils and daisies, and beehives dripping with honey. The colour yellow triggers happy memories of carefree days with loved ones. This versatile feel-good hue pairs beautifully with most colours, including white, orange, green, pink, blue and brown.

A big thank you to the Project Manager for efforts to coordinate the painting schedule and overseeing details as the painting was in progress and Supervisor for the extra kind in the painting work with his team of professional painters. The painting was done with much help to move items, and cleaning the mess after each day of painting work. Highly recommend others for such painting works!
