

Neoprene

Print date 15-05-2019

Glove material

- Neoprene (Coating material)
- Interlock cotton (Liner material)

Possible Harmful ingredientsSensitizers

- Zinc Dibutyldithiocarbamate

Only a very small number of users may be sensitised to this ingredient in the glove and hence may develop irritant and/or allergic contact reactions.

Reach Regulation 1907/2006

For more information, please consult the REACH statement on the Ansell website

Properties

- Excellent chemical resistance to many chemicals
- Excellent grip

EN Test Data**Liquidproofness:**

Acceptable Quality Level 1.0 or EN performance level 2

Chemical permeation:

For more information on chemical permeation, please consult Ansell website

European conformity

Gloves conform to the requirements of the European Directive 89/686/EEC and to the European standards EN 420:2003 + A1:2009 and EN388:2003, EN374:2003 micro organism, EN374:2003 chemical resistant, EN388:2016, EN ISO 374-1:2016 A, EN ISO 374-5:2016 Micro organisms, EN407:heat flame (2016).

They are categorised in "Complex Design" (= Protection against mortal risks).

EC-Type Examination Certificate and EC-quality control for the final product by

Centexbel
Technologiepark 7
B-9052 Zwijnaarde

Application - Limitations of use

Do not use against flames or temperatures < - 25°C or > 160 °C.

Hand protection

Poor versus aromatic hydrocarbons, chlorinated solvents and esters

Storage

- Keep away from sources of ozone or ignition. Keep out of direct sunlight; store in a cool and dry place.
